

Environmental Policy

Innovative Energy Solutions (IES) is committed to protecting the environment, including the prevention of pollution through identifying and mitigating our environmental aspects and impacts.

We are determined to conduct our business in an environmentally responsible manner.

The Management at IES are committed to:

- Integrating environmental management system practices into all business processes.
- Recycling as much of our waste material as possible across the company.
- Maintaining an Environmental Management System compliant with ISO14001.
- Ensuring sustainability through the effective and efficient use of resources.
- No environmental breaches.

As part of our systems and processes we shall:

- Protect the environment including prevention of pollution.
- Minimise pollution from our works by developing work methods that reduce the risk of environmental damage.
- Continuously improve our Environmental Management System to enhance environmental performance.
- Develop environmental objectives and targets and review performance against these objectives and targets.
- Communicate our Environmental Policy to all employees and subcontractors.
- Contribute to energy/resource saving by offering eco-conscious products and work methods to our clients where possible.
- Reclaim used materials where appropriate and recycle them where possible.
- Maintain awareness of environmental-related legislation and regulations and to fulfil our compliance obligations.
- Train our employees and subcontractors on environmental awareness.
- Strive to be a leader in Environmental Management for our industry.

Meeting our commitment is a shared responsibility. All employees, contractors, or others working for or on behalf of IES are required to conform to this Policy.

This policy applies to all activities undertaken or controlled by Innovative Energy Solutions.
