

Environmental Policy

Innovative Energy Solutions (IES) is committed to protecting the environment, including the prevention of pollution through identifying and mitigating our environmental aspects and impacts.

We are determined to conduct our business in an environmentally responsible manner.

The Management at IES are committed to:

- Maintaining an Environmental Management System compliant with ISO14001.
- Integrating environmental management system practices into all business processes.
- Recycling as much of our waste material as possible across the company.
- Ensuring sustainability through the effective and efficient use of resources.
- No environmental breaches.

As part of our systems and processes we shall:

- Protect the environment including prevention of pollution by developing work methods that reduce the risk of environmental damage.
- Continuously improve our Environmental Management System to enhance environmental performance.
- Develop environmental objectives and targets and review performance against these objectives and targets.
- Communicate our Environmental Policy to all Employees and Contractors.
- Contribute to energy / resource saving by using eco-conscious products and work methods where practicable.
- Reduce / re-use / recycle materials where practicable.
- Maintain awareness of environmental-related legislation and regulations and fulfil our compliance obligations.
- Train our Employees and Contractors on environmental awareness.
- Strive to be a leader in Environmental Management for our industry.

Meeting these commitments is a shared responsibility. All Employees, Contractors, or others working for or on behalf of IES are required to conform to this Policy.

This policy applies to all activities undertaken or controlled by Innovative Energy Solutions.
